Fast-paced neon arcade game which is extremely addictive, has very fluent and simple yet unique gameplay and you can choose your 2 favorite colors (in my case it is yellow and lightblue). Soundtrack is absolute fitting and awesome. Sad part is that it is not getting the attention it deserves. Absolutely recommended.. Should have been in normal game. Haven't noticed any of these units anywhere.. It seems like the physics are not good. The basketball seemed to always use the same path even when I tried to slightly change my throw. The balls rebounds weirdly in the arcade games. Sometimes, the golf ball travels like it weighted a ton by rolling slowly and endlessly, other times it flies high like if I used an iron.

At the end of the mini-golf game (9 holes), I didn't know if there was something else to do (another hidden 9-holes? what about the big boat?). You have to get back to the center by "walking" the whole 9 holes back.

If you really want something cheap to initiate you with VR, download Rec Room which is soo much fun, and FREE.. The Swiss flag paintjob looks great. For an early access game its good but does need some work, needs a few changes like making the characters movement more smooth and not looking like a constant struggle when running and is quite buggy right now (but its early access so i'll let it slide :P) . I admit i was super excited about this game being in a haunted house and having to get around the spooks and from then ending of the trailer i had seen is what made me buy it, i wish it had more of that as that was what i was interested in, its hard to scare me and this certainly got me on the edge of my seat, however when that came to an end and i was outside i felt like i'd kinda was in a silent hill game with the fog and no one around and fighting monsters. I love the idea of going into first person mode when entering a house as it gives more suspense as to whats around the next corner and you feel like your more into the game than just a character. I like where this game is going but i loved being in the scarey haunted appartment more than the outside, it got me more on edge, i hope it continues with the jumpscare as its rare to find good ones in games. I look forward to playing the full release.. do not buy it. Abandoned!!!

Definitely not much to see here and probably an easy one to avoid.. Love this app. I was in the beta. And it works great.. nice simple game. good for filling a little time. Biggest 2 issues are. the combat is a bit off, in the tunnels I found even though right on top the creature. sword still did not hit. Other issue. its too short. finihsed a bit to soon. needs more dungeons.

I paid \$30 for this OVA only to find that the "Nyannyan paradise" track is different from the in-game track. Very disappointed.. Neat game, like spectating a Stellaris match.. Blanco (Or At Least What I Have Played Of It So far) Is a fantastic game That I wish I had found sooner

Of Course It Is still early access so a few bugs are present (You Can Get As Many Cards you Want In any level if you keep coming back to it) But Other Than That It Really Is a fun Game If You like 3D platformers like super mario 64 and the like.

but it is not just the gameplay oh No This game also has a Great Soundtrack. I would say all the music I have heard so far is either amazing or incredible (The Exception being the clocktower level which I feel was lacking With Its music)

And The "Story" Is Good For What It Is, Your A cube person and all the other cube people go on adventures to find their colour, And While Its Decided For most by their name (Someone named blue tries to find blue Someone Named red Etc) Your father/Caretaker/TophatGuy Decideds to name you blanco, so you can decided what colour you want.

So Blanco Teleports to a forest circle and begins his amazing adventure to find his Colour Which I guess is the color Blanco Which When I googled it seems to be white with a tad bit of gray.

The Game Also Has a shop but for now its semi barebones and also a card system where you collect cards and unlock stuff with em

Also It Had some challenge to it as some of the platforming can be difficult (Personally I thought the enemies were pretty easy to mess with except for the red bug guys)

All In All its a fantastic game so far And With its current price (3.29 But I got it on sale) How Can you not want blanco? Of Course You Could not want blanco Or You Could leave a 5 dollar bill on the ground in a forest becuase those are on the same level.

Personally Though I really Like games like this where even though it seems hardly anyone knows about it, in reality its a fantastic game (Games Like David,Dark ball 2 Kharmia) And I have to praise the maker And give him the best of luck to make blanco even better then it already Is!. It's sad that there won't be sequel to this game, as this is one of the only great games Tell Tale has made. In fact, it is the best game by Telltale. A great dark-fairy tale story that I highly recommend.. good loco
